

WERA Network Marketing Meeting 2010

Together with the Maritime Cluster Schleswig-Holstein, emma technologies and other linked international partners of the Maritime Industry, Helzel Messtechnik will organise this year's

NETWORK MARKETING MEETING 2010

The purpose of this marketing event will be to build new structures and to strengthen the existing network of the Maritime Companies with a main emphasis on „Coastal Ocean Monitoring“ and joint technologies.

This two-days intensive meeting will provide special sessions on the first day where you will be able to have short presentations on your company's specific resources and products and will concentrate on the WERA and Ocean Radar related marketing situation on the second day.

It will offer opportunities to meet colleagues from abroad, exchange on the different marketing situation for your products and develop new synergy strategies to strengthen your international marketing position.

Use this excellent networking opportunity!
